INTERNATIONAL YOGA DAY

Yoga is an art which connects our soul, mind and body together. It is a system of raising our ability to persevere, to enhance and to realize our ultimate nature. It is a gift of humanity and should be started early in life so that the practitioner can reap the lifelong benefits of this ancient practice. So to pay an honour to this day, De Paul children celebrated International Yoga day. Yoga dance, asanas, advanced yoga all were displayed by the children. They were enthusiastic to perform them with utmost confidence. To conclude it was a wonderful and peaceful celebration.
